

A black and white photograph showing a large, messy pile of old, discarded tires scattered across a grassy field. The tires are of various sizes and are piled haphazardly, some overlapping, some lying flat. The background shows more tires and some bare trees, suggesting a rural or undeveloped area.

If you have more than 500 or less than 10,000 illegal scrap tires on your property, the Missouri Department of Natural Resources can help. Through its Tire Dump Round-Up program, the department is offering qualified property owners the opportunity to have scrap tires cleaned up free of charge. The program is funded by the state's 50-cent-per-tire scrap fee paid when new tires are purchased in Missouri. Other financial incentive programs are available to those who do not qualify for this program.
